

הרשת החברתית מחקרית מנדלי

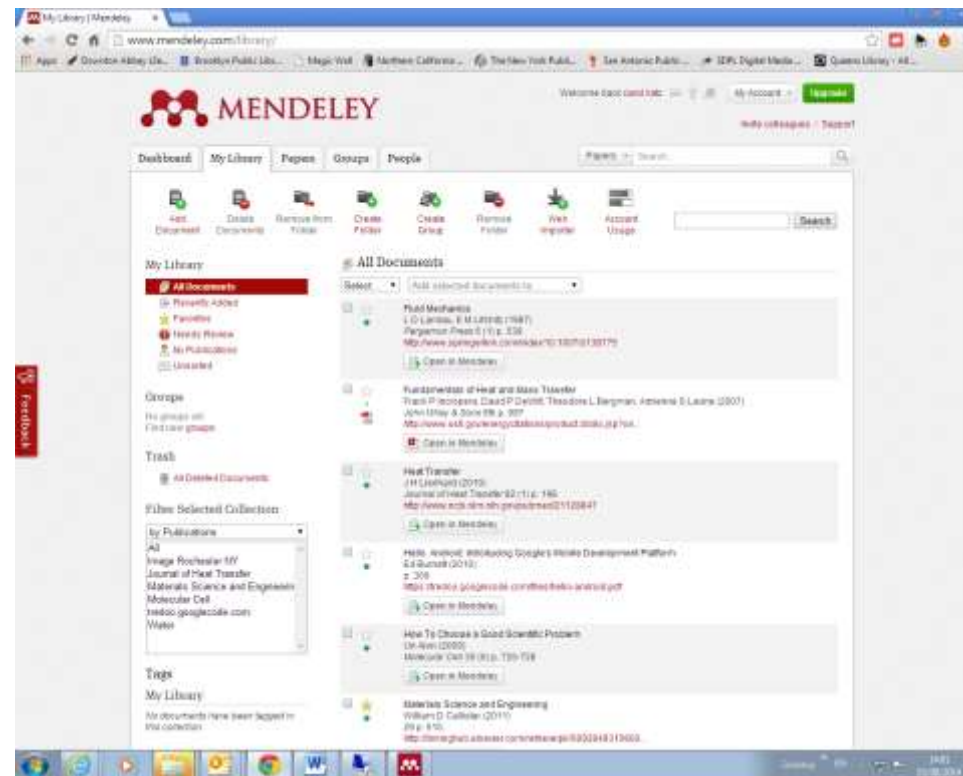

← Mendeley מארגן את קבצי PDF שלכם.

← אפשר לייבא מאמרים מעשרות מאגרים (כולל SCIENCE DIRECT).

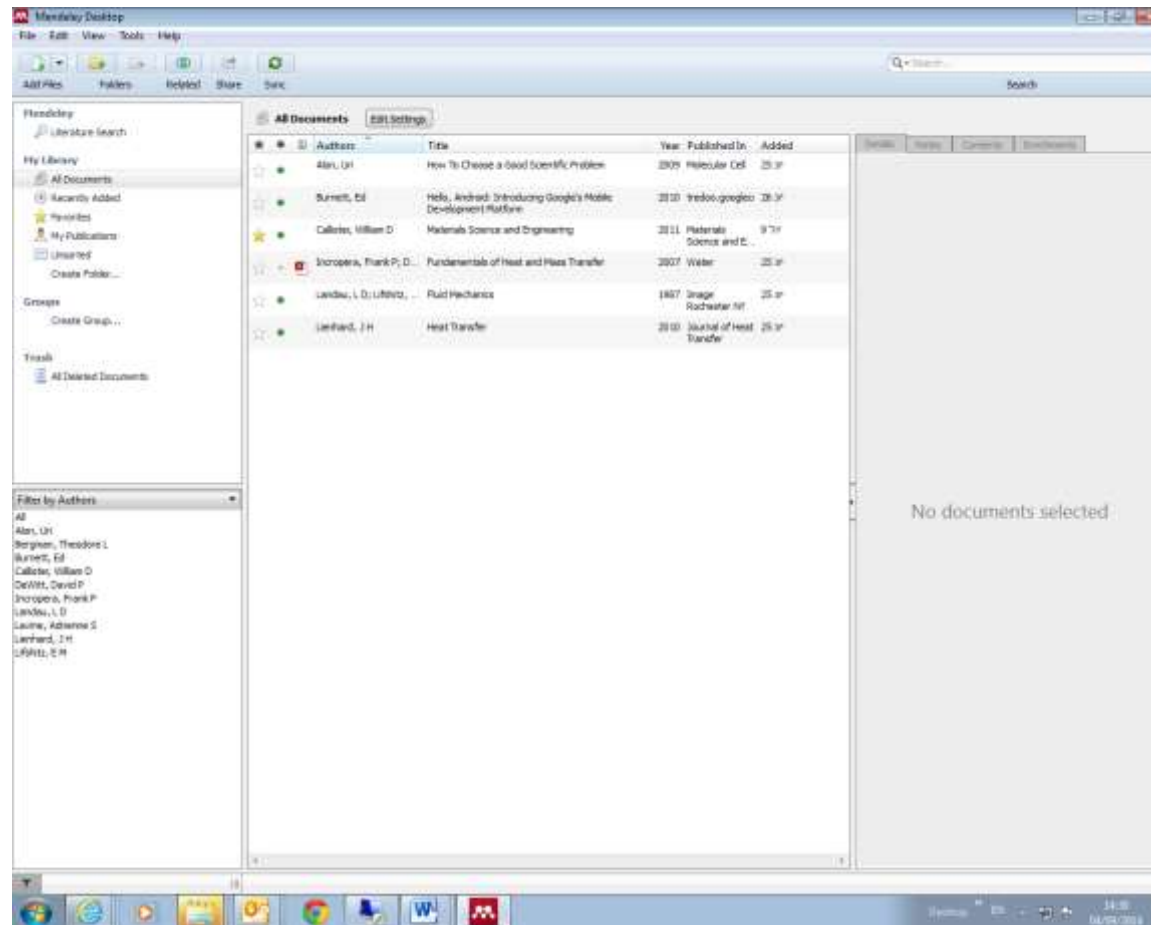

← ניתן להוסיף הערות ולשתף אחרים.

← ניתן ליצור רשימה ביבליוגרפית לפי כללי ציטוט שונים.

תרשמו ב WWW.MENDELEY.COM ניתן לעבוד באינטרנט ולשתף אחרים בעבודות.

יש גרסה "דסקטופ" להורדה, ואפשר לעשות סינכרוניזציה בינו לבין הגירסת הוובית.

אפשר לייבא ציטוטים מעשרות מאגרים (כולל מ SCIENCE DIRECT)

The screenshot shows the ScienceDirect website interface. At the top, there is a green navigation bar with the ScienceDirect logo, "Journals | Books", "Shopping cart", and "Remote access". Below this, there is a search bar and navigation links like "Download PDF", "Export", and "More options...". The main content area displays an article from "FEBS Letters" (Volume 586, Issue 1, 2011) titled "Accommodation of the structure of protein 1". The article is edited by Kaspar Loch and William E. Walden. A dialog box is open in the center, titled "You have selected 1 citation for export." It offers two main options: "Direct export" and "Export file". Under "Direct export", there are buttons for "Save to Mendeley" and "Save to RefWorks", each with a corresponding "About" link. Under "Export file", there are radio buttons for "RIS (for EndNote, Reference Manager, ProCite)", "BibTeX", and "Text", followed by an "Export" button. The background article page includes an "Article outline" on the left with sections like "Abstract", "Keywords", "Abbreviations", and "1. Introduction". There is also a "Figures and tables" section with a small image of a protein structure. At the bottom of the page, there is a DOI link: <http://dx.doi.org/10.1016/j.febslet.2011.11.018> and an "Open Archive" button.

ניתן להוריד מאמרים ב PDF ישיר מ Science Direct ומאגרים אחרים

The screenshot displays the ScienceDirect website interface. At the top, there is a green navigation bar with the ScienceDirect logo and links for Journals, Books, Remote access, Sign in, and Help. Below the navigation bar, there are options to Download PDF, Save to Mendeley, and a search bar. The main content area shows the article title "Risk factors for thromboembolism during aspirin therapy in patients with atrial fibrillation: The stroke prevention in atrial fibrillation study" from the Journal of Stroke and Cerebrovascular Diseases, Volume 5, Issue 3, 1995, Pages 147-157. The article abstract is visible, starting with "Although atrial fibrillation (AF) is associated with ischemic stroke, some AF patients have an inherently low rate of thromboembolism. Additional AF patients might have a low thromboembolic rate when given aspirin. We undertook exploratory analyses to identify patient features related to thromboembolism during aspirin therapy, as the basis for the design of a clinical trial. A cohort of 854 patients given aspirin 325 mg/day and followed for a mean of 2.3 years in a clinical trial was analyzed. Clinical and echocardiographic features at study entry were correlated with subsequent arterial thromboembolism by multivariate analysis. AF patients given aspirin who had high thromboembolic rates were women over age 75 years (10.4%/year) and those of either gender with systolic blood pressure > 160 T (7.6%/year), prior thromboembolism (6.4%/year), and impaired left ventricular function (5.5%/year). AF patients with one or more of these features had a thromboembolic rate of 5.9%/year (95% CI 4.5-7.8) during aspirin therapy. Patients without these features comprised 52% of the cohort and had a thromboembolic rate of 1.9% per year (95% CI, 1.2-2.9). Most strokes in all subgroups were classified as cardioembolic; the highest rate of cardioembolic..."

On the right side, there is a sidebar with a "1 article found" notification and a "Save" button. Below this, there is a section for "Download PDFs if available" with a "Learn more" link. The sidebar also contains a "Risk factors for thromboembolism during aspirin therapy in patients with atrial fibrillation: The stroke prevention in atrial fibrillation study" entry, which includes the journal information and a "Save" button. There are also sections for "Add to:", "Tags:", and "Notes:".
